Copy 3 of 5  
22 December 1958

Dear Sid:

Reference is made to your letter dated 14 August 1957 which set forth a consolidated list of Air Force Requirements for Data Reduction Racks for Systems I, III and IV and which also requested "...a kit or additional 'Black Box' will be procured to correct the variations in speed when using A, B<sub>1</sub> and B<sub>2</sub> racks. Our requirement for this item would be a total of four (4)."

Recently the technical people involved with the above mentioned "Black Box" were in headquarters and suggested we send the Air Force requirements to the following address:

25X1A

Transportation Officer  
Offutt Air Force Base Nebraska  
Project [REDACTED]  
Attn: Capt. Mon  
Phone 26151

Accordingly we are sending four (4) each speed control rack assemblies (Black Box) which were fabricated in this organization to the above address.

Sincerely

Dan
